To Whom It May Concern:

Jerry Sorgento and his company New Age Solar installed a solar system at my residence in Montclair, New Jersey. I would like to take this opportunity to recommend Jerry to you as a prospective solar energy provider.

My experience in working with Jerry was excellent. His professionalism, knowledge and expertise made the entire process, from start to finish, one that was efficient and straightforward.

I have been so impressed with his background, his work and his understanding of how to integrate solar technology into any venue, as well as with his ability to find cost effective turnkey solutions, that I introduced Jerry to a school in my town. I have also introduced him to a chief administration official of another township in which I hold a managerial position. After a preliminary meeting, there are now ongoing discussions for Jerry to implement a plan to convert the entire township into a green community.

Again, I highly recommend Jerry to you as I know that he and his team will help you to find the solutions you seek for your renewable energy needs.

If I can be of any further assistance, please don't hesitate to contact me.

Sincerely,

Dennis Wright
