Re: Sidwell Friends School – Middle School
HITT Job #21-5725

Subj.: Solar Panel Installation

Mr. Sorgento:

As a project manager on large commercial construction projects, one does not get the chance to be exposed to solar panels and their installation requirements on a daily basis. As a matter of fact, the Sidwell Friends Platinum LEED Project is the first time I was exposed to solar panels in over 12 years in the industry.

I just wanted you to know that working with New Age Solar from the original bid, through value engineering and through the commissioning process was made so easy for Hitt Contracting because of the cooperation and "know how" of you and your firm.

The ability of New Age Solar to be on the cutting edge of the latest technologies, to know the best installation configurations and the ability of New Age Solar to work with us on such a tight schedule made this portion of the Project run so smoothly, compared to the trades we usually work with every day.

Thanks you for time and efforts on this Project and we hope get the chance to work with you in the future, as it has been a pleasure.

If you ever need any type of recommendation for a potential client, please do not hesitate to call me at our home office. The phone number for that office is (703) 846-9000.

Sincerely,

HITT Contracting, Inc.
